क्रैंडें केंखि त्रिष्टें क्रेंडें केंडा।

<sup>6.</sup> রেট্ট কঃ ইউন স<u>্টিছা</u> অগ্র।।

1×5=5

Far away in the north of our country there is a long range of mountains called the Himalayas. The high tops of these mountains are always covered with snow. At the foot of the mountains there are great fast flowing rivers. The trees in the forest are very tall and grow close together. Many wild animals, such as tigers, panthers, bears etc. are found in the Himalayan forest.
